Social Passions

Social Passions - Charitable Giving - Community Involvement

As an active contributor to several local charitable organizations and one of the larger employers in McHenry county, Corporate Disk realizes how important it is to support the community. We invite everyone from our company to get involved, from our executive management to our warehouse employees. Whether it's volunteering to hand out food, becoming a mentor for a young person, participating in fundraisers, or offering cash donations. Every kind offering is welcomed.

We have a passion to help make a difference in both our social and business community by dedicating time and/or resources to organizations we believe support and enhance many great programs.

Quotes:

"Kindness is the language which the deaf can hear and the blind can see." - Mark Twain

"You will find, as you look back on your life, that the moments that stand out are the moments when you have done things for others." - Henry Drummond
